

THE MAN WITH NO BOLLOCKS

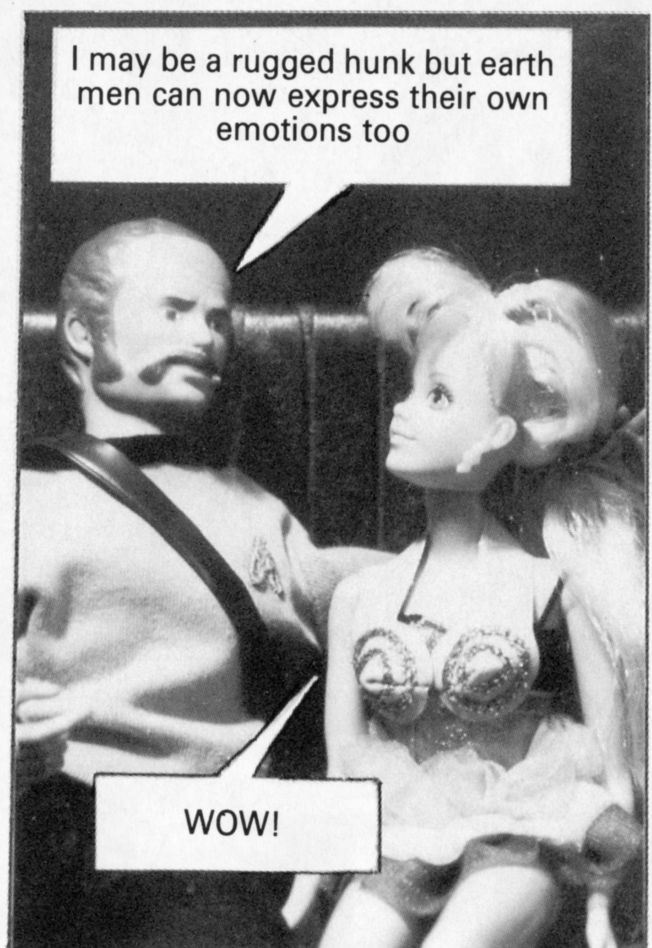

The year is 2592, Ted Thrust intergalactic woodwork teacher and space warrior is on his way back to earth, escorting Princess Sharon of the Planet Vulvic on her first visit to Earth. As Ted's ship rockets through space.

Damn Alien Dragonfly

ZAP

Gee Ted you're such a beefcake

I may be a rugged hunk but earth men can now express their own emotions too

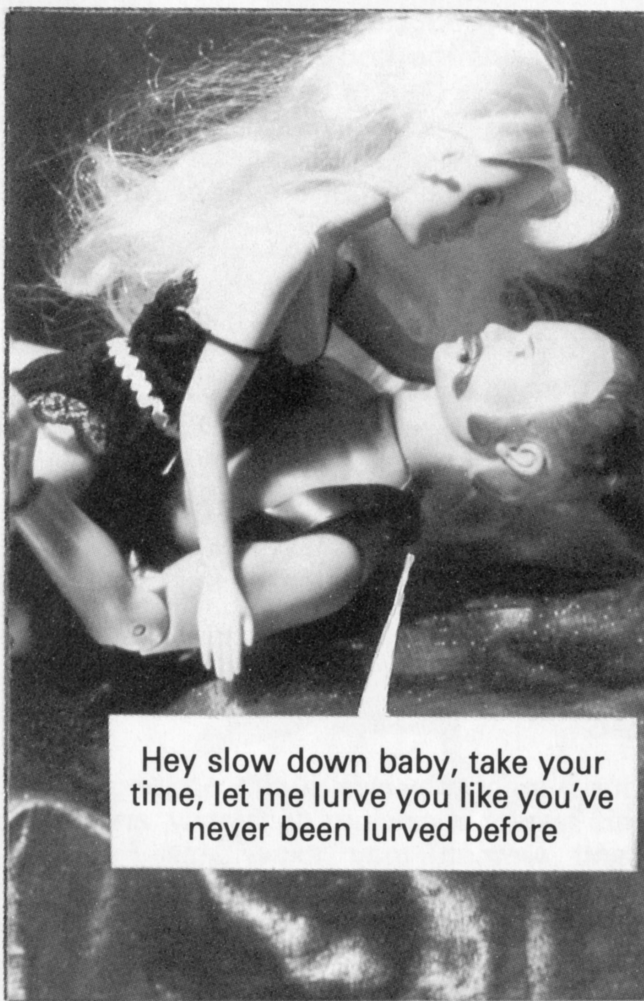

WOW!

Earth men of the 26th century feel comfortable with their masculinity whilst about to explore their feminine side

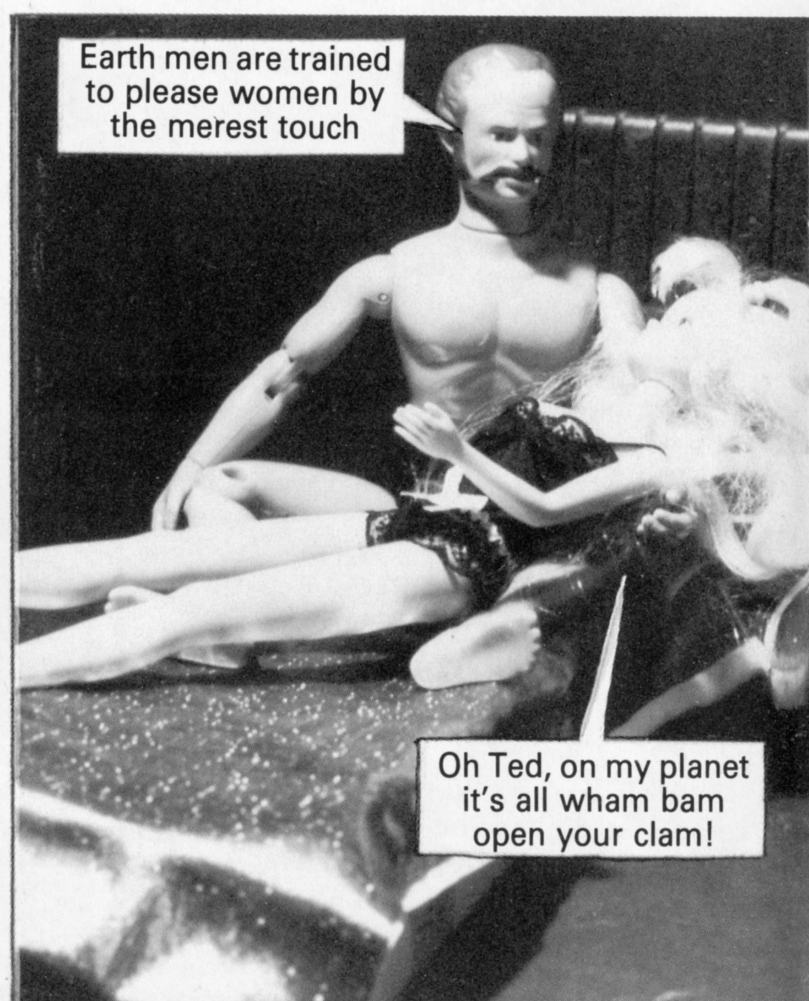

Let's Fuck

(I think I'm on here)

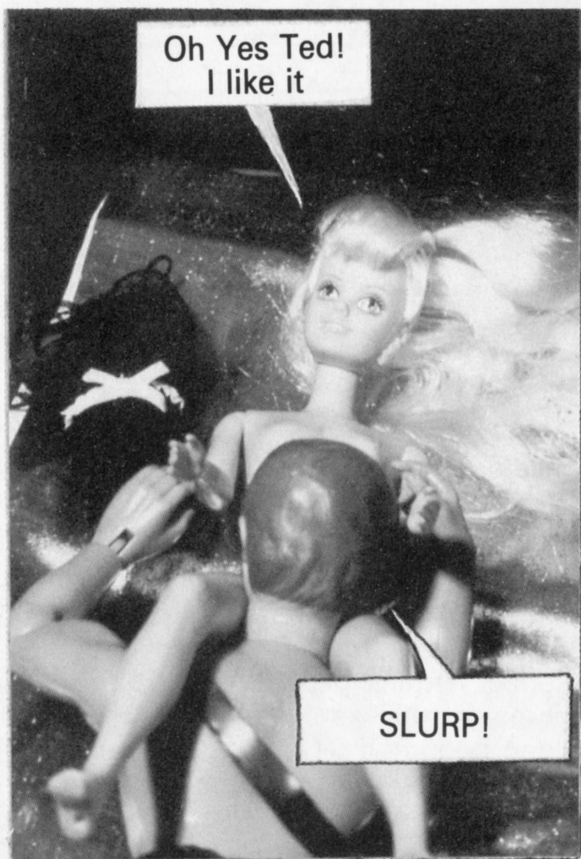

Hey slow down baby, take your time, let me lurve you like you've never been lurved before

Earth men are trained to please women by the merest touch

Oh Ted, on my planet it's all wham bam open your clam!

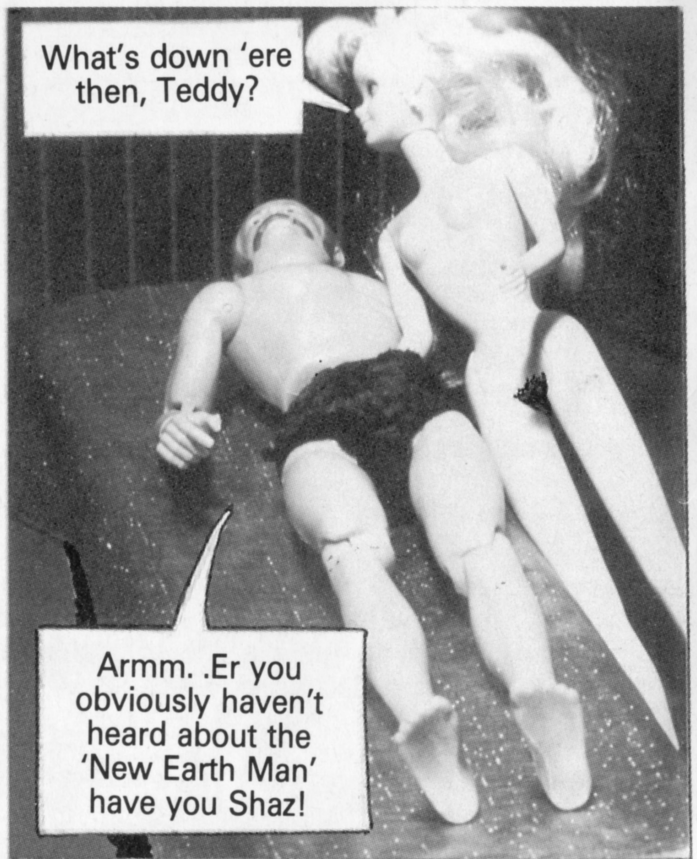

Oh Yes Ted! I like it

SLURP!

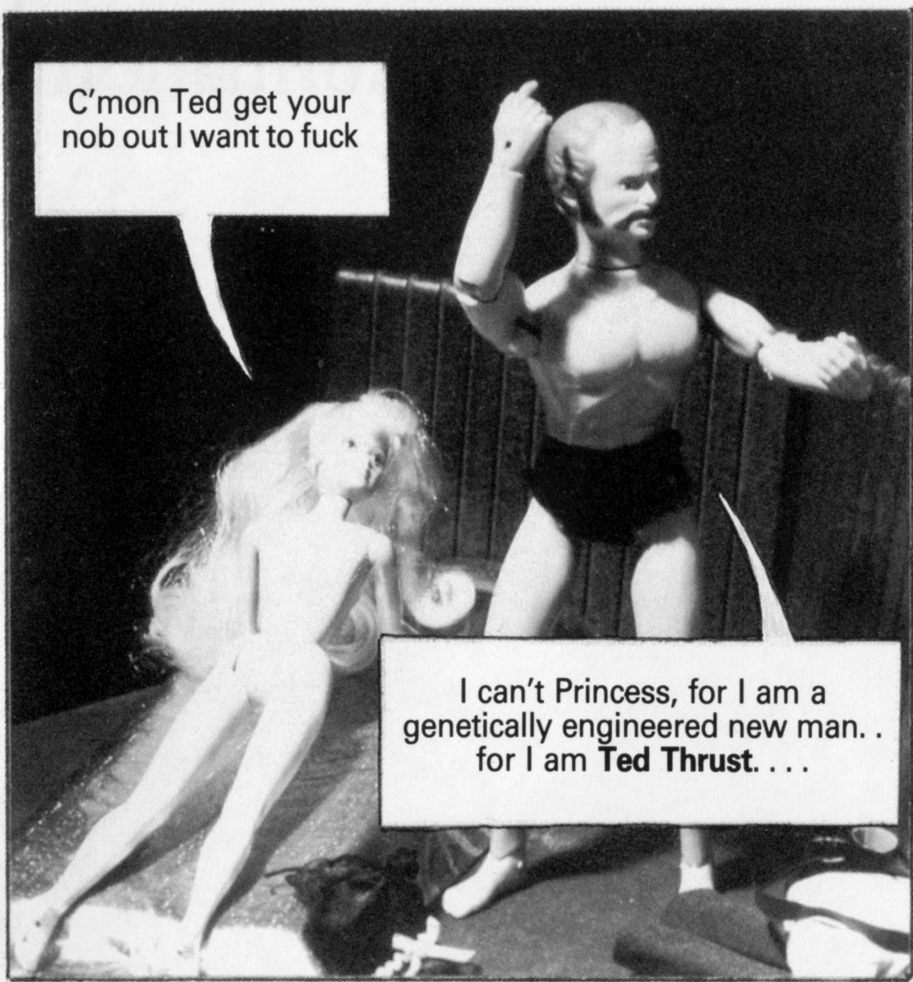

On my planet I may be a Princess, Popstar and Brain Surgeon, but I never knew I could cum without a penis in me. I feel like a **real** woman!

GNURGMNNURG!

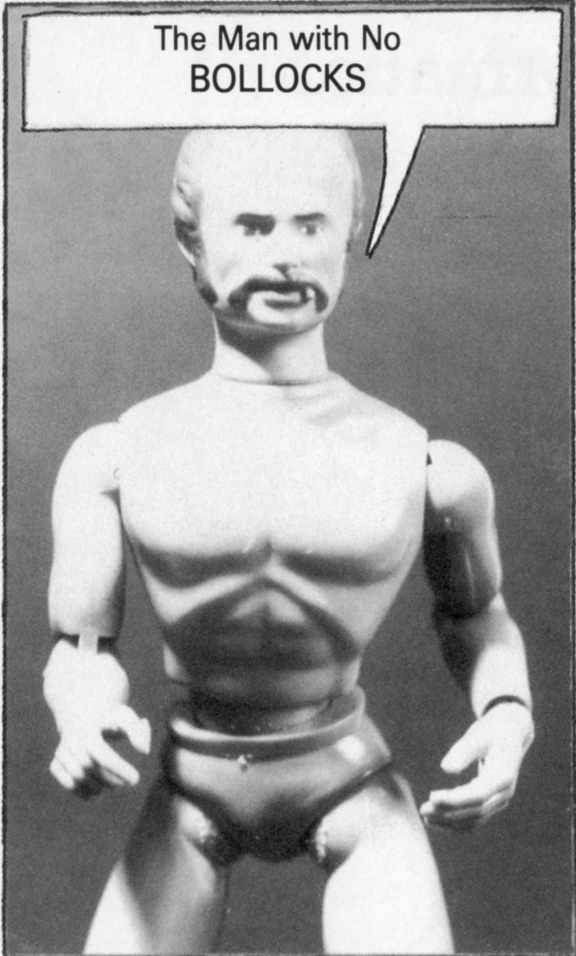

What's down 'ere then, Teddy?

Armm. .Er you obviously haven't heard about the 'New Earth Man' have you Shaz!

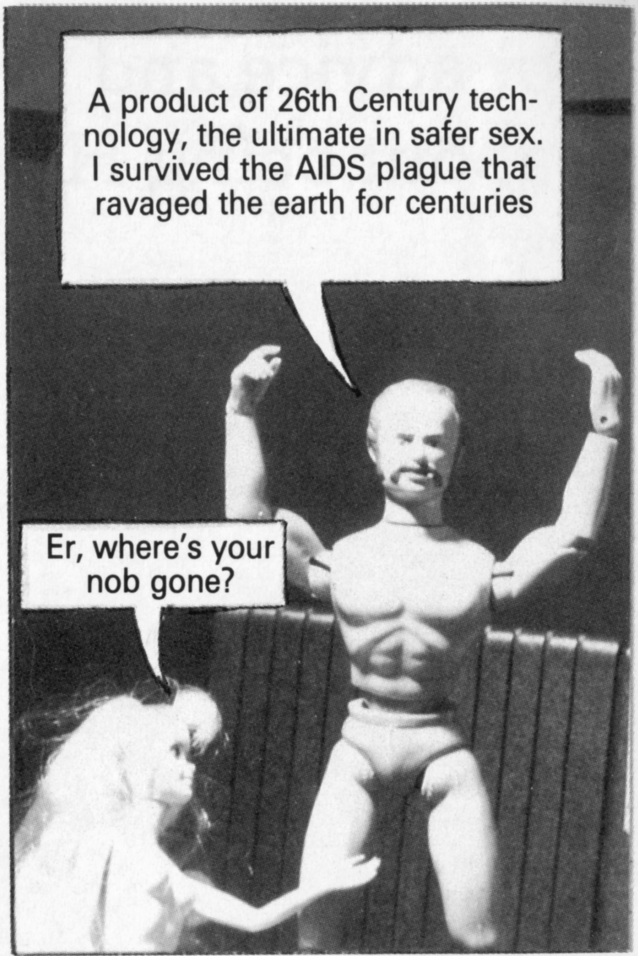

C'mon Ted get your nob out I want to fuck

I can't Princess, for I am a genetically engineered new man. . for I am **Ted Thrust**. . .

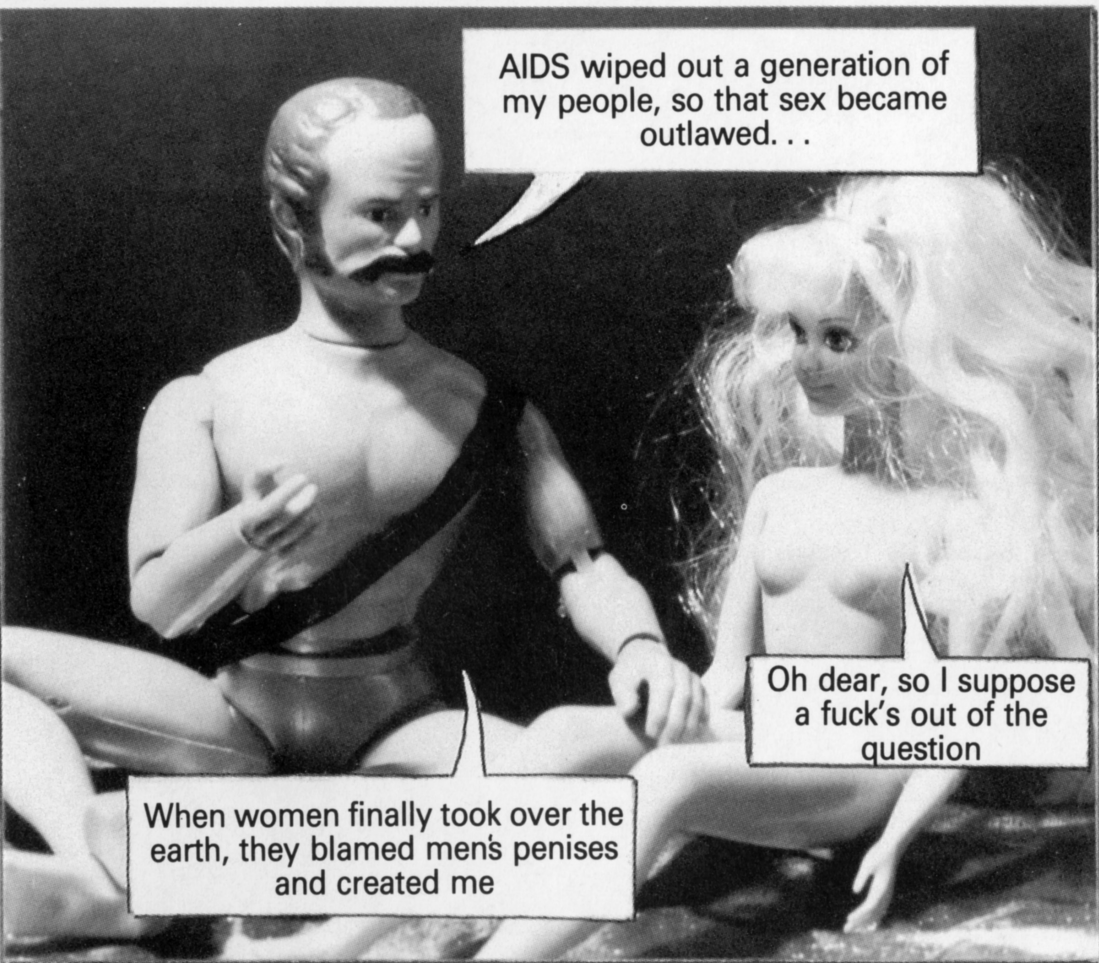

The Man with No **BOLLOCKS**

A product of 26th Century technology, the ultimate in safer sex. I survived the AIDS plague that ravaged the earth for centuries

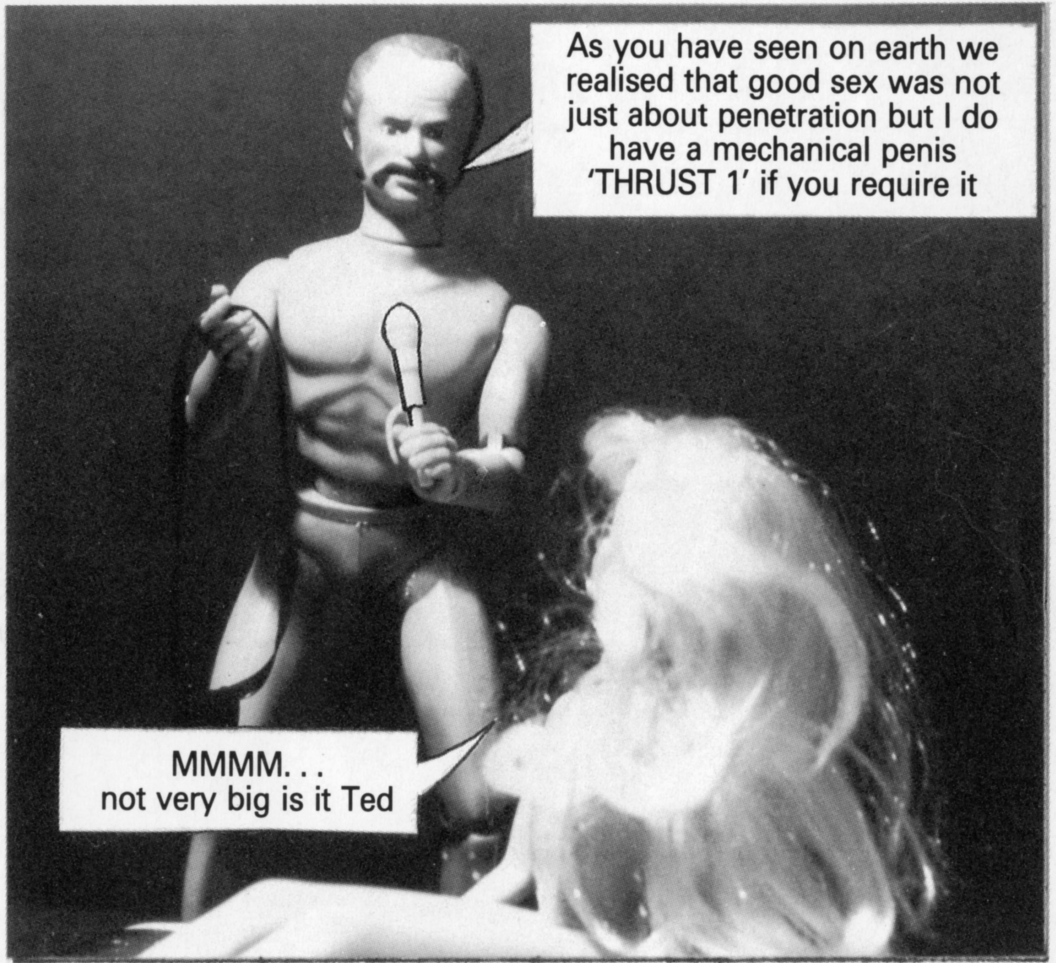

Er, where's your nob gone?

AIDS wiped out a generation of my people, so that sex became outlawed. . .

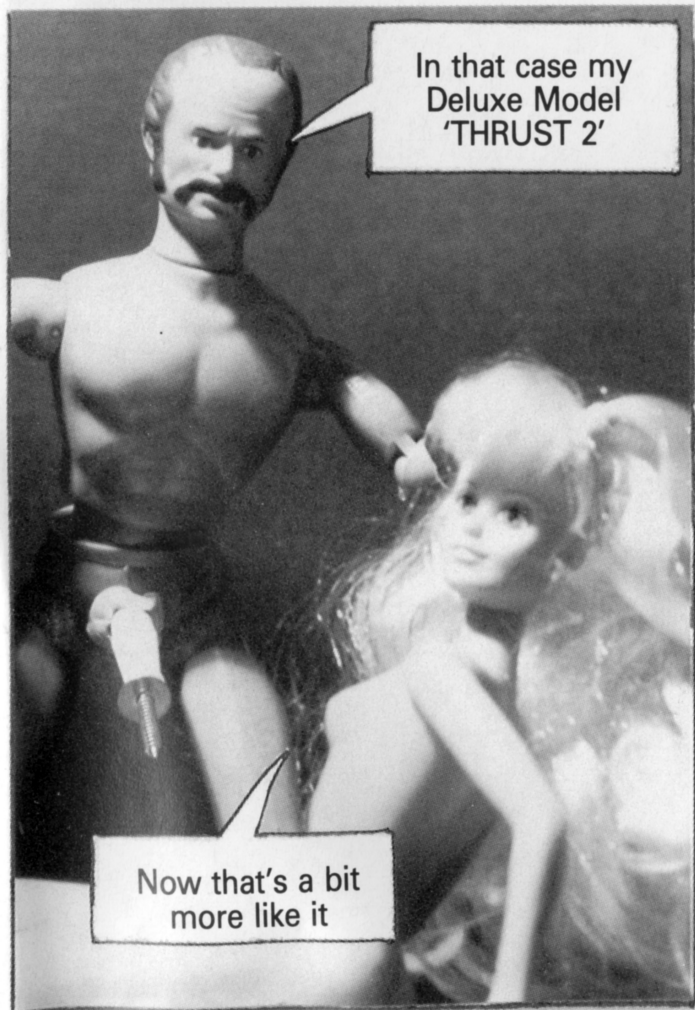

Oh dear, so I suppose a fuck's out of the question

When women finally took over the earth, they blamed men's penises and created me

As you have seen on earth we realised that good sex was not just about penetration but I do have a mechanical penis 'THRUST 1' if you require it

MMMM. . . not very big is it Ted

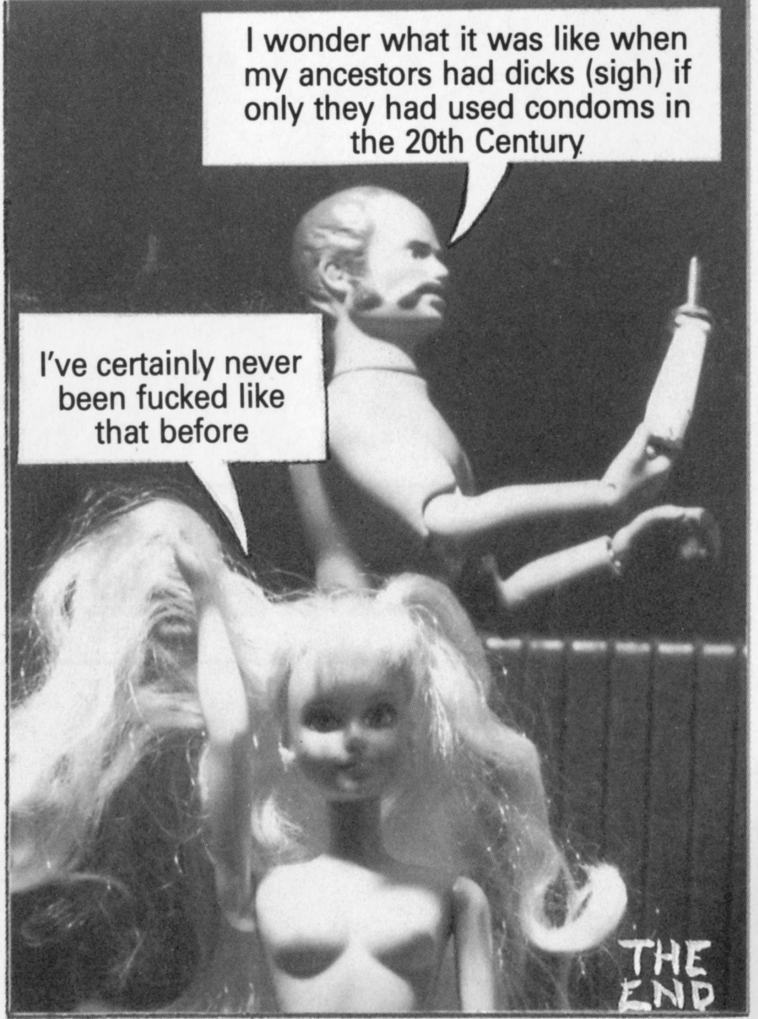

In that case my Deluxe Model 'THRUST 2'

Now that's a bit more like it

OHOOOOO OHOOH!

WHIRL!

I wonder what it was like when my ancestors had dicks (sigh) if only they had used condoms in the 20th Century

I've certainly never been fucked like that before

THE END
